

Speak Up For Safety

SAFETY

TRUST WHISSELL FOR...

HEALTH SAFETY ENVIRONMENT

HEALTH

We have the Safety leaders on our team to ensure our employees are safe and our projects are being executed safely every time. Our experts are involved from the bid process, through to completion. Our culture is safety first with technology and processes in place that make us stand out in our industry.

Why work with Whissell?

SAFETY

Simple Powerful Intervention

Safety initiatives like the *Speak Up For Safety*.

This is a grass roots field driven initiative with support from the ownership and senior executive management. The key premise behind this program is “*empowerment*”. *STOPS and Conversations* for improving safety.

WIIT Training

Flagship program *Whissell Institute of Innovative Technology (W.I.I.T.)* in the form of an in-house apprenticeship. The goal of the program addresses an industry need to provide measurable progression, clear role & performance expectations and ongoing documented feedback to skilled trades to create a competency certification.

ENVIRONMENT

Accountable industry leading environmental best practices. Our Environmental Training is included within our HSE System and includes:

- Ground Disturbance Level II
- Air Quality Testing
- Emergency Response Procedures
- Spill Response
- Soil Monitoring & Testing
- Slope Protection and stabilization

Whissell has a long history of looking after their own people and others on site and the *S.P.I.R.I.T.* (Safety, People, Integrity, Respect, Innovation, Teamwork) values will continue to support a strong culture of *STOPS* leading the way as an industry best practice.

Let us help you complete your next project safely!
